### EVERGREENS

These Evergreens are specimens, having good root system, owing to frequent transplanting. It being difficult to transplant Evergreens, we cannot, under any circumstances, guarantee them further than that delivery shall be made in first-class condition. B. & B. is Balled and Burlapped when shipped. This gives the best results, and we recommend they be ordered this way.

## ROSES

Our Roses are strong plants, grown outdoors, well rooted, hardy and first class. Every plant has blossomed before it is shipped, and is far more valuable than a mere tender shoot started in a greenhouse and without strength to stand the shock of transplanting.

How to grow roses strong and vigorous has been a life study with us. We are among the largest growers of Roses in the country and the list below embraces varieties that will succeed over a wide extent of country. We aim to grow every Rose that has merit, but name only those whose merits are such as to commend them to the average Rose lover.

### Hybrid Perpetual Assortment

\$1.25 each.

\$11.00 per 10

Alfred Colomb (crimson).

Baron Bonstetton (velvety dark red).

Clio (satiny blush).

Coquet des Alps (pure white).

 Ulrich Brunner (cherry crimson).

### Hybrid Tea Roses

\$2.50 each

### Los Angeles

The following is the originator's description, all of which we fully endorse; Los Angeles is, by all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long stemmed flowers of a luminous, flame-pink, toned with coral and shaded with translucent gold at the base of petals. In richness of fragrance it equals in intensity the finest Marechal Neil. The buds are long and pointed, and expand into a flower of mammoth proportion, while the beauty of form and ever increasing wealth of color is maintained from the incipient bud until the last petal drops.

### Hybrid Tea Roses

The varieties listed under this head are all such as will keep up a succession of flowers all Summer after their glorious burst of bloom in June. The list includes the very best of the Everblooming Roses, both old and new varieties, and will fill your garden, all Summer long and way into Fall, full of beauty.

\$1.50 each.

**Hardy Climbing Roses**

Following is a list of the best that can be had. The perfect hardiness of this class of Roses, their strong growth and luxuriant foliage, adapt them for covering arbors, walls, trellises, and unsightly objects, which, together with their immense clusters of beautiful flowers commend them to all lovers of the beautiful. Require little pruning, except to thin out weak or dead branches.

We wish to call your special attention to the Dr. W. Van Fleet and Silver Moon. Color of Dr. W. Van Fleet is a remarkable delicate shade of flesh pink, deepening to rosy flesh in the center. Flowers full of double, delicately perfumed, buds pointed, stems 10 to 15 inches long; fine for cutting. Silver Moon, clear silvery white, very large, sometimes the flowers are 4 inches across.
